Beaufort Memorial Hospital

FREEZER TEMPERATURE LOG (MEDICATION)

Month_____ Year_____

- Record Freezer Temp daily by placing an X in the appropriate box. Shaded boxes and **BOLD** print represent acceptable temperature range for medication. (-10°C to -30°C)
- If temperature is not within the shaded area of acceptable range, recheck after one hour and record temperature in the box labeled "Re-check in 1 hour".
- Areas not open 24/7 use a Tractable Freezer Thermometer and record both "high" and "low" readings upon re-opening.
- If temperature remains out of range for more than one hour, notify Pharmacy and Plant Services, and place a check mark in the appropriate "Notification" box below. Place a sign on the Freezer indicating **"Do not use anything from this Freezer**".
- Return meds to Pharmacy as determined appropriate after consultation with Pharmacy. Complete a BMH Reportable Event report.
- Place your initials in the last row
- Vaccines require temperature monitoring and recording twice a day
